To: Ryan Jackson, MD, FRSM

*Dean of Academics at Caribbean Medical University*  
Caribbean Medical University  
World Trade Center  
Curaçao  
Kingdom of the Netherlands

Dear Dr. Jackson,

I am writing to tell you how delighted I was in giving the lecture "*Lung Cancer in the 21<sup>st</sup> Century form TNM to Genomics*" to your medical students on March 15, 2017.

I am grateful for the opportunity you have given me to meet with your students and learn from their expectations as they prepare to enter our noble profession. I wish all of them the best of luck!

I certainly appreciate the time and consideration during my brief stay in Curaçao and am looking forward to returning to the Caribbean Medical University.

I also would like to inform you that our Division of Thoracic Surgery and the Lung Center at The Brigham and Women's Hospital is hosting the first Lung Nodules - What You Need to Know: Evaluation and Management in 2017 Symposium to be held June 9 – 10, 2017 at the Dana-Farber Cancer Institute and the Joseph B. Martin Conference Center at Harvard Medical School in Boston, MA. Would you be interested in giving a 20-minute talk on the State of Affairs of The Medical School - A Caribbean Experience please let me know as soon as possible.

Sincerely yours I remain,

*Marcelo DaSilva, M.D.*
